

Term Project Submission Package and Format

- PPT
 - (including “learning experiences”, and teamwork data (task assignment for each member, and contribution percentage for each member))
- WORD
 - Source code with good comments
 - Including explanations for all modules/classes/libraries/functions/methods (along with the parameters) used that were not taught or used in Lab classes (* This is to prevent students from just copying code found on the Internet without actually learning anything. *)
 - (You may make use of code found on the Internet (blogs, Kaggle, GitHub, etc.). However, in that case, you MUST cite the sources. Failure to cite them constitutes plagiarism)
 - Outputs (including plots, code execution results)
 - Teamwork data: task assignment for each member, contribution percentage for each member
- PPT and WORD file zipped
